The Christie Repository

<http://christie.openrepository.com/christie/>

The Christie Repository

- Started with a self-hosted/maintained repository
- Moved to OpenRepository
- Used to **track research output of staff** and associated researchers

The process and the plus

➤ Gathering the data

➤ Reports for trust / full text

➤ Producing the records

➤ Identify papers to tweet

➤ Once uploaded

➤ Links on external consultants
on the trust website

Monthly reports to R&D

Bigger bibliometric yearly reports

Benefits

- ⚡ Closer relationship with research
- ⚡ Raised our profile
- ⚡ Publications policy now asks researchers to deposit their work

Substantial research-ability already exists

- The **'Impact Factor'** of a journal is a measure of the average number of times articles in that journal are cited each year
- We examined the Impact Factors of N=755 unique publications from our members from 2011-2017

Challenges

- Who and what gets included?
- Getting the correct file in the right format
- Deadlines
- Open access
