Knowledge for Healthcare

An ambitious vision:
NHS bodies, their staff, learners, patients and the public use the right knowledge and evidence, at the right time, in the right place, enabling high quality decision-making, learning, research and innovation to achieve excellent healthcare and health improvement.

Research

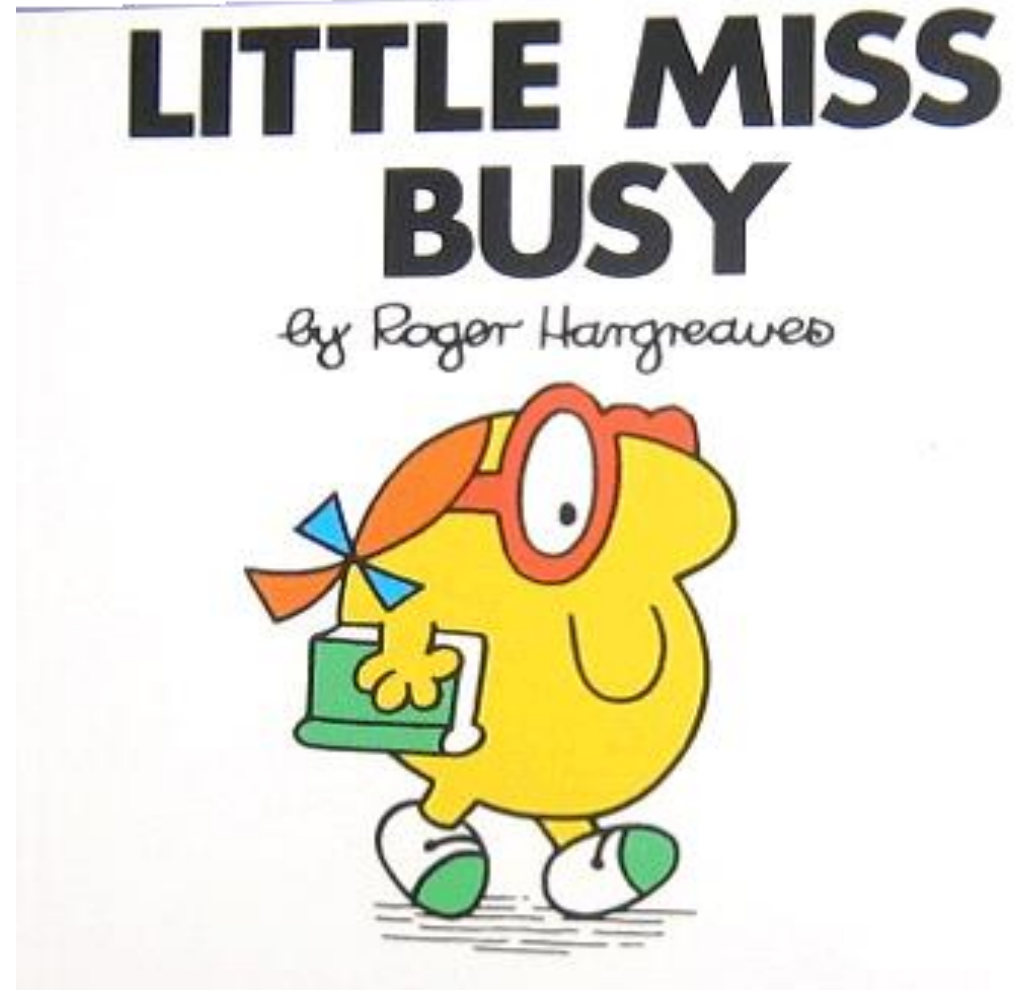

“The main challenge for evidencing libraries impact is that, despite the relatively modest nature of what stakeholders would be looking for libraries to **demonstrate** (that their activities make a measurable contribution to a range of intermediate outcomes, and that their services can reach particular target groups), **the current evidence base still remains insufficient** in a number of ways.”

Statistics

- Measures busyness
- Busyness is in the eye of the beholder
- In an NHS library & knowledge service: is 5 literature searches busy?

Feedback

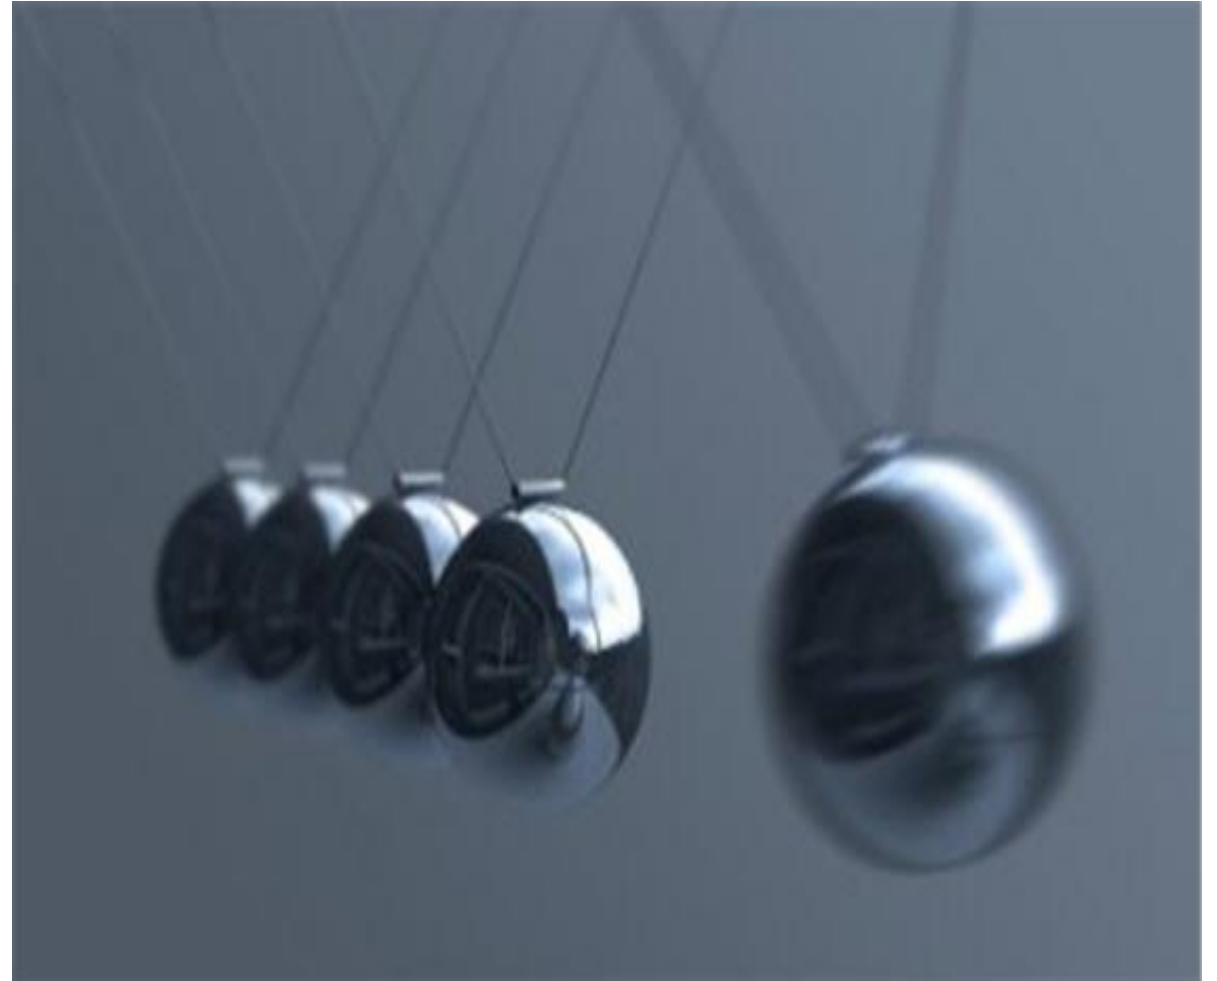

- An indication of how much they like you?
- "A great service, the staff are so friendly"
- "Let's count the Christmas cards..."

Impact

The difference your service makes:

- To the organisation's objectives
- To patient care
- To the bottom line
- To educational achievement

Strengthening ‘professionalism’

We are launching a Professionalism Review, led by new Chief Librarian of the British Library, Liz Jolly, to redefine what it means to be a professional working in libraries and information today

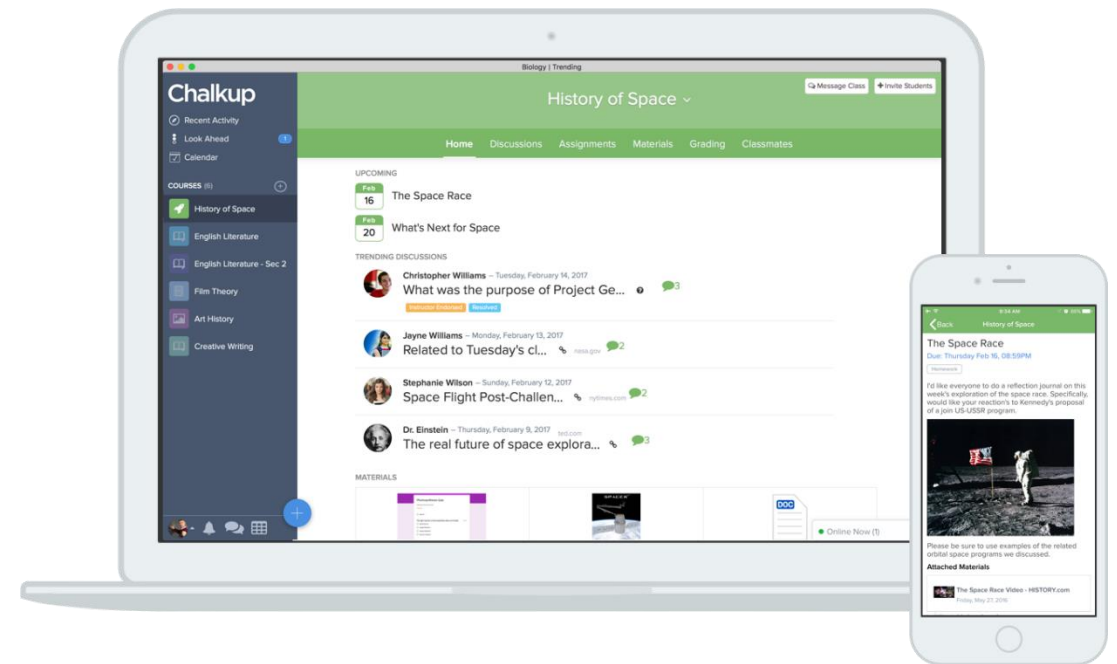

Embracing a progressive and inclusive vision of a professional as someone who:

- Champions the profession
- Leads and instigates change
- Behaves ethically
- Aspires to excellence
- Is a reflective practitioner
- Maintains their skills

New training & online learning from CILIP

We have launched a comprehensive new online and face-to-face learning and CPD programme, featuring content and e-learning to help librarians and information professionals keep their skills up-to-date.

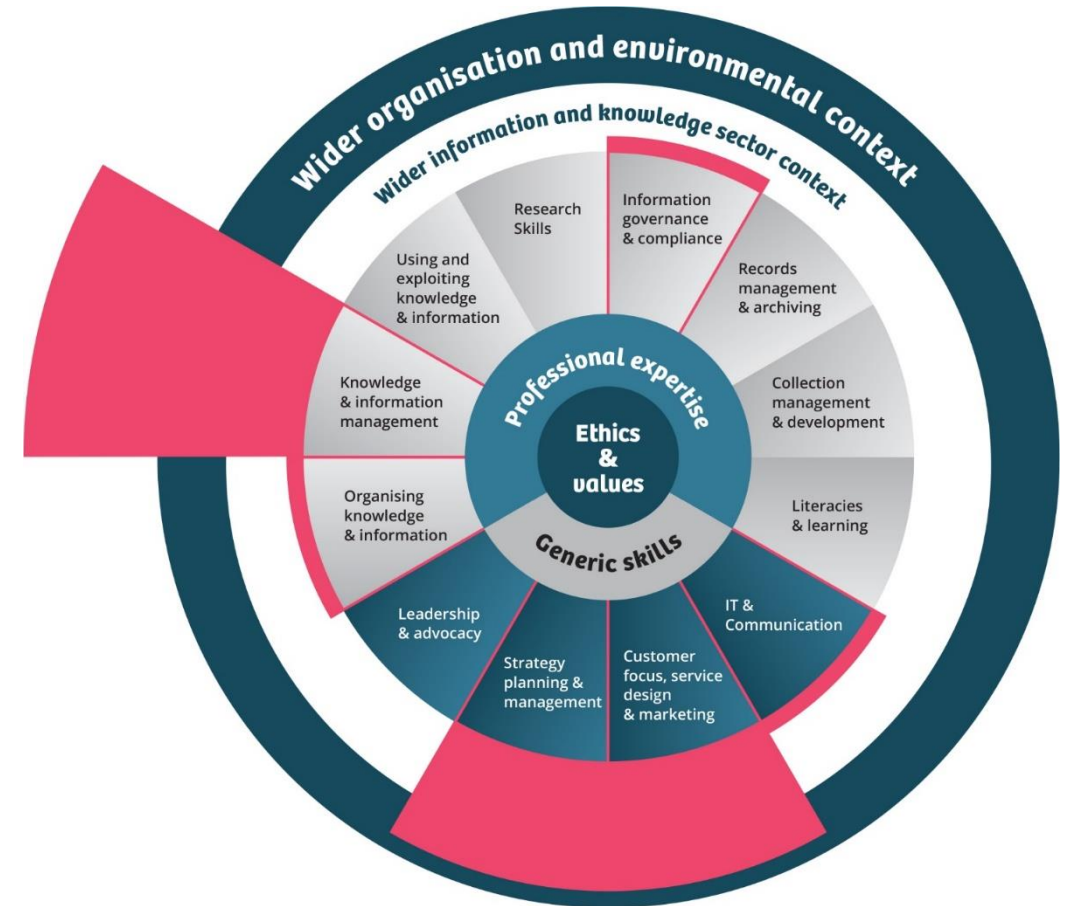

Chartered Knowledge Managers

In April, CILIP is launching Professional Registration for the global Knowledge Management community, coinciding with the publication of the ISO30401:2018 Standard.

For the first time, we will be able to accredit KM professionals as “Chartered Knowledge Managers”.

Launching Chartered Information Manager and Chartered Data Scientist in the next 2 years.

Leadership support

The new CILIP Leaders Network has grown to more than 500 emerging and established leaders in 2018.

Leaders Network members get affiliate membership of the Chartered Management Institute (CMI) offering outstanding management and leadership training, plus exclusive leadership events and a regular Leaders Network bulletin

CILIP is committed to securing the future of the information profession by future-proofing our skills, building influence and advocating for the difference we make.

The role of the CILIP President is to put the members' voice right at the heart of the governance and direction of CILIP

The Presidential Team (Vice President and current President) are here to represent you and to ensure that CILIP is acting in your interests.

Support our shared cause

CILIP is the only independent voice of librarians and information professionals – entirely owned and led by our members. We are committed to securing a better future for our society, for information users and for our profession.

With your support, we can do more, be more visible, shout louder and have a far greater impact.
