

Virtual Christmas Study Morning 2020

#YOHHLNet

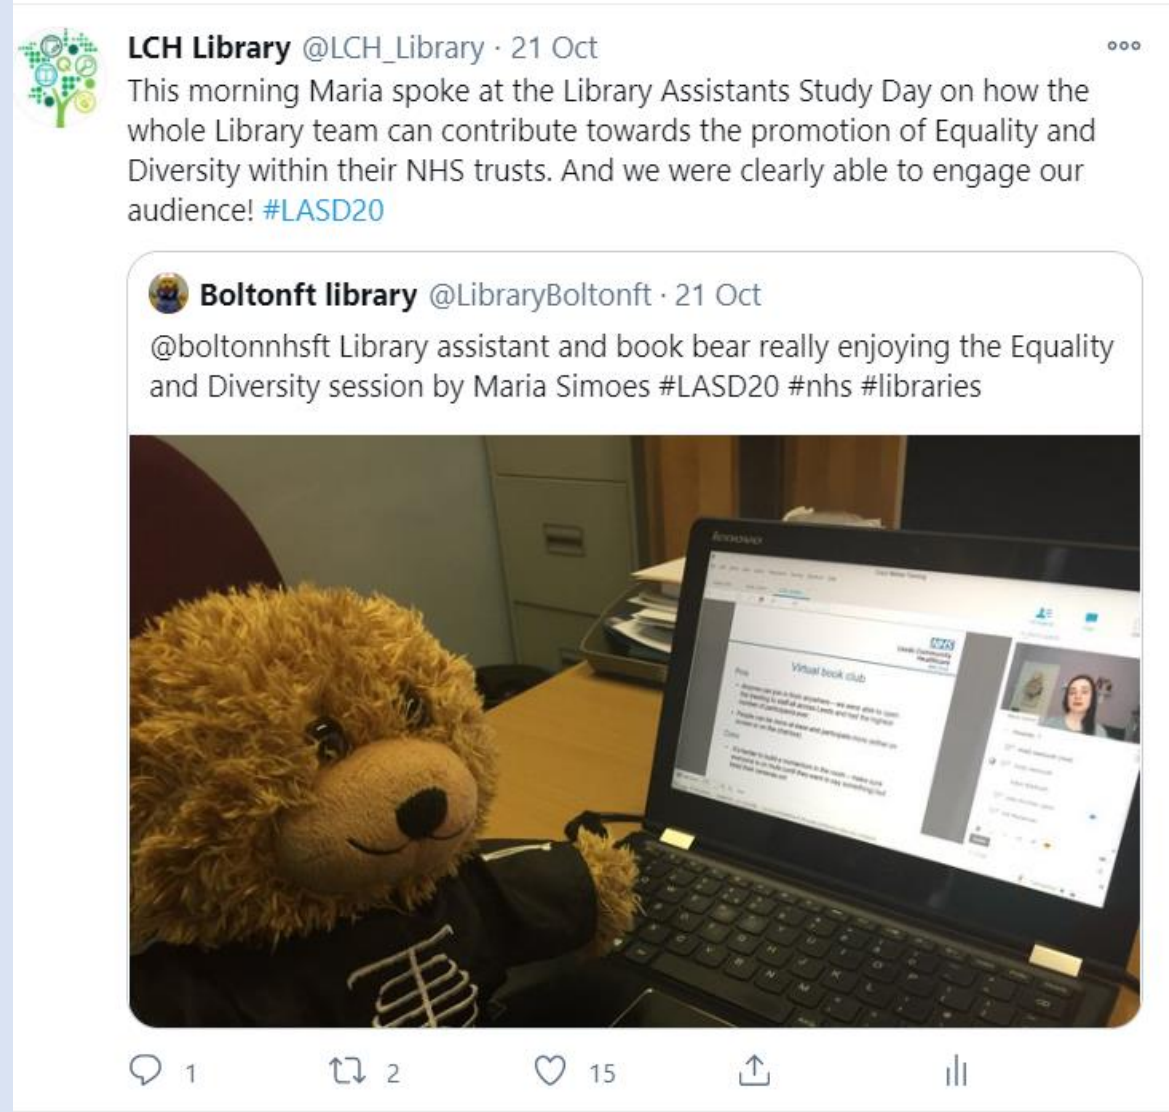

Adjusting to new ways of working (and new colleagues) for LKS staff from Leeds Community Health Library (LCH)

Delivering services virtually, such as Sheffield Children's Hospital Illingworth Library's Reading Group. SCH staff, Uni staff and former SCH staff have met virtually every month since March, they have described the virtual group as being a 'lifeline' and 'a spark of joy'.

Maria from LCH speaking at the Library Assistants Study Day, via Webex, about the special edition of their book club dedicated to *Why I'm No Longer Talking to White People About Race*.

Staff organised this following their trust's call for initiatives in response to the disproportionate impact of COVID-19 on BAME communities, and the resurgence of the Black Lives Matter movement.

Directing users to evidence-based information at LCH

Signposting resources and a purpose-built portal at Rotherham Hospital's Library & Knowledge Service

- Guidelines for clinicians & managers
- Databases & datasets: search the latest research & data
- Evidence summaries: the latest research, synthesised
- Browse the latest research by publisher (e.g. The BMJ)
- Alerts: sign up for daily updates
- Critical Care: COVID-19 information
- eLearning resources on COVID-19
- Health organisations: information for professionals
- Information for the public
- Health & well-being resources for NHS staff dealing with COVID-19

Coronavirus (COVID-19) Portal

Your gateway to the latest research, news stories, policy updates & guidelines

On this page we've brought together the latest guidelines, research and news on COVID-19. Browse the section headings below.

NHS Boards in the time of Covid-19

Summary by Melanie Dawson-Jones, BDCFT Library and Health Promotion Resources, November 2020

<p>Building and enabling digital teams NHS Providers, November 2020</p>	<p>This briefing outlines how NHS Providers sees its role evolving as system working develops. As provider organisations pursue greater integration and work with their local partners to implement system working, NHS Providers will continue as their partner, adapting to meet their needs.</p>
<p>A new era of digital leadership NHS Providers, July 2020</p>	<p>The NHS response to COVID-19 has accelerated digital transformation everywhere, underlining the importance of every trust having a strong understanding of the topic. This guide is designed to help boards build on this momentum. The five standalone chapters cover:</p> <ul style="list-style-type: none"> • the definition of digital • why digital transformation matters • pre-conditions for success • factors that help or hinder digital delivery • lessons from other sectors
<p>Digital Boards: digital download NHS Providers, October 2020</p>	<p>All NHS trusts have established ways of bringing patient and service user views to the board. But how close are you to your users' digital experience? At development sessions and peer learning events, trust leaders have shared some practical ideas to bring these essential stories and viewpoints to the board's attention. This board briefing note sums up discussions so far.</p>
<p>NHS Reset: a new direction for health and care NHS Confederation, September 2020</p>	<p>Bringing together NHS Confederation members and partners, the NHS Reset campaign has convened the health and care system to reflect on the learning from the last six months and what it means for the future. In doing so, we have identified five factors we believe will help to fundamentally reset the way health and care is planned, commissioned and delivered.</p> <ul style="list-style-type: none"> • Honesty and realism • Extra funding • A lighter, leaner culture • Integrating health and care • Tackling health inequalities <p>The scale and pace of innovation has been one of the unexpected consequences of the pandemic. Our work with NHS leaders shows clearly their determination to seize the</p>

Evidence summaries as requested by the Board at Bradford District Care.

The summary explores system working and partnerships – potential future NHS policy; culture on leadership; delivering the best high quality safe care; delivering the best high quality safe care in response to the pandemic.

LKS staff at the NHS Staff Library and Information Service at Mid Yorkshire Hospitals are producing weekly evidence bulletins originally requested by the Trust's Head of Medical Education to be sent to medical directors. The library team has also widened the brief to include nursing and AHP staff.

Quality Improvement Your search phrase

You are here: Resources > Quality Improvement

Quality Improvement

We can help improvers be more successful by connecting them with the knowledge and learning from other organisations, so that they can get up and running, make decisions and deliver more quickly and based on evidence.

Our mission is to provide them with connections and the 'gold dust' information about what works, what doesn't work and why, that can be applied straight away. So QI teams never need to start with a blank page, or start from scratch.

Evidence Search

We offer an Evidence Search service where we can undertake a search on a specific topic to help inform your decisions.

Our service allows teams to make decisions more quickly, as by showing them what others have done they have the confidence to make that decision.

We can help teams think about the following...

- What evidence is already available and what are the gaps?
- What evidence might help you innovate and improve?
- Who has done this before? How did they do it? What did they learn?

To request an Evidence Search simply click on the button below.

[Request an Evidence Search](#)

QI Recommended Resources

Listed below are recommended resources for anyone working in or with Quality Improvement (QI). It is based on recommendations from QI teams.

- QI tools and guides
- Articles
- Videos
- Online Training
- Books
- QI sites and networks
- Useful Websites

Evidence4QI

The Evidence 4 Quality Improvement (E4QI) project aims to support the quality improvement (QI) community to better use evidence and knowledge in QI projects. To find out more follow [@Evidence4QI](#) on twitter, check out the [Pinterest Board](#).

E4QI Evidence 4 QI

Staff in the Library and Research Centre at Leeds Teaching Hospitals have been working with their Quality Improvement teams as part of the Evidence 4 QI (E4QI) project. This has been a real highlight for staff this year, and as well as developing their relationships with QI professionals, they have also produced a webpage explaining how they can support QI projects. This has been promoted through their QI networks; and support from the library service is now also highlighted in QI training.

Further information is available on their website:

YOHHLNet Christmas Study Day

Claire Bradshaw

Rumination

VERSUS

Reflection

A reflective model

Analysis and evaluation

What is the importance of this?
What more do I need to know about this?
What have I learned about this?

What?

Description and self-awareness

What happened? What did I do? What did the other person do? What was I trying to achieve?
What was good or bad about the experience?

So what?

Now what?

Consider actions, options and next steps

What could I do differently?
What do I need to do?
What might be the consequences of this?

Activity

1. Identify a timekeeper
2. Identify a 'scribe'
3. Each person to share how your object encapsulates your learning from 2020 (No more than 2 minutes each!)
4. Work together to create:
 - A carol
 - A poem
 - A story
 - A Christmas card

(11 minutes) – be prepared to share!

Thank you!
